## Class Descriptions

**Basic Obedience:** 6 week on leash obedience class plus 1 private session after the last class. Covers all the basic commands: **come, heel, sit, down, stay, leave-it, off, go to your bed, loose leash walk and watch me with hand signals.**

**Puppy Socialization & Introduction to Obedience:** 6 week class begins socialization of your puppy and introduces basic obedience with naming, **let's go, loose leash walking, sit, down, stay, come, leave-it, off, and go to your bed.** For puppies from 3 to 6 months old. Gives your puppy good preparation for basic obedience.

**Dog Handling for Children:** 5 week class designed to give your child confidence around the family dog by learning handling skills and basic dog obedience commands such as **loose leash walking, sit, down, stay, come, leave-it, off, and go to your bed** . For children 6 to 12 years old. For younger children, large or difficult to handle dogs, we recommend your dog have basic obedience skills prior to attending this class.

## Other Two Paws Up Training Services

**Day Camp Training:** For dogs who have specific undesirable behaviors that are correctable in a limited number of sessions. Along with the private training session, we provide a full day of play and socialization at day camp. Your dog will learn the proper corrections for unwanted behavior and your dog will be taught a "go to your bed" command. At the end of the day, plan on a 15 minute personal session with the trainer for feedback, follow-up and specific homework instructions.

**Head Start Training:** Want to get a solid start on training, and still be hands on with your dog? After completion of this program, you can join a Group Class or sign up for a few private lessons to finish your dog's training. **10 days Head Start Training with 20% off Basic Obedience Class.**

**In Board or Day Camp Training:** Do you need your dog trained and socialized but have no time to do it yourself? Then this is the program for you. We will do the training for you and then teach you what your dog has learned with us. **21 day on leash obedience training; 45 day off leash obedience training.**

**Private Lessons or Behavior Modification:** Our trainer comes to your home or meets you at Two Paws Up and helps build a training program to fit your needs and goals for your dog.

At **Two Paws Up**, we believe a well balanced dog is best achieved through socialization with people, dogs and other animals the dog is likely to encounter. We also recommend exposure to a variety of sights and sounds of daily life, from busy streets to bicyclists and runners to meeting strangers and friends in public and at home. Obedience training provides rules of behavior in the home and in public, Consistent practice and re-enforcement of the rules provides the dog with an ordered, structured world that makes him feel safe, trusting and confident. Most behavior problems we see occur because of the lack of socialization, training or consistency. Training the dogs is the easy part. Training the people is often the bigger challenge. Our goal is to help provide you with a well balanced and well behaved dog, along with the skills necessary to maintain your dog's good behavior throughout his life.

**Two Paws Up** offers a full range of training and behavior modification strategies for your dog. We have group classes, We also offer In Camp and Day Camp Training Programs, and Private Lessons. All classes are held at Two Paws Up facility at 27361 N Lake Wohlford Rd Valley Center, just north of Woods Valley Rd. The facility has a lighted field for evening classes.
